PROFESSIONAL SUMMARY

Recent BS Software Engineering graduate with 2.5+ years of self-directed project experience building full-stack applications using **React Native**, **ReactJS**, **Node.js**, **Express.js**, and **MongoDB**, working in both **JavaScript (ES6+)** and **TypeScript**. Skilled in designing custom auth middleware, file-upload pipelines, and database schemas, alongside integrating **Clerk Authentication**, **Stripe Payments**, and **Cloudinary**.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend:	ReactJS, React Native, React Hooks, Expo Framework
Backend:	Node.js, Express.js, MongoDB, Mongoose, MySQL, RESTful API Design, Custom Auth Middleware, File Upload Handling
Styling:	Tailwind CSS, Responsive Web Design, CSS Flexbox, CSS Grid, Cross-Browser Compatibility
State Mgmt:	React Context API, useState, useEffect, useReducer
Performance:	Web Performance Optimization, Lazy Loading, Code Splitting
API Integration:	Clerk Authentication, Stripe Payments, Cloudinary
Practices:	Agile / Scrum, Version Control (Git), SEO Best Practices
Tools:	VS Code, npm, Vercel, Chrome DevTools

PROJECTS

Cross-Platform Full Stack E-Commerce Application (Final Year Project) *May 2026 – June 2026*

- Designed and built a custom **Node.js/Express.js REST API** in **TypeScript**, with **MongoDB (Mongoose)** data models for products, users, and orders.
- Implemented custom **authentication middleware** to verify user sessions and protect backend routes.
- Built a **file-upload middleware pipeline** to handle product image uploads to **Cloudinary**.
- Developed the cross-platform frontend in **React Native (Expo)**, integrating **Clerk Authentication** and **Stripe Payments** for secure login and checkout.
- Deployed the backend on **Vercel**.

Responsive ReactJS Web Applications *March 2024 – September 2025*

- Built fully responsive web interfaces, converting complex design prototypes into clean, optimized code.
- Utilized **Tailwind CSS** to ensure fast UI development and solid cross-device display compatibility.
- Managed state-handling logic and integrated external **REST APIs** for fluid data rendering on front-end components.

EDUCATION

University of Okara *November 2022 – June 2026*

BS in Software Engineering | Okara, Pakistan | CGPA: 3.15/4.0

CERTIFICATIONS

- React Hooks Crash Course – hands-on mastery of functional React patterns
- Executive Diploma in Business Communication – stakeholder communication & technical writing
- Agile Scrum Master (Simplilearn) – cross-functional collaboration & inclusive practices
