PROFESSIONAL SUMMARY

BS Software Engineering graduate and Frontend Developer with 2.5+ years of self-directed project experience building responsive web interfaces and full-stack applications. Skilled in **React.js**, **Next.js**, **React Native**, **JavaScript (ES6+)**, **TypeScript**, and responsive web development, with additional experience in **Node.js**, **Express.js**, **MongoDB**, **Clerk Authentication**, **Stripe**, and **Cloudinary**.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend:	React.js, Next.js, React Native, React Hooks, Expo Framework
Backend:	Node.js, Express.js, MongoDB, Mongoose, MySQL, RESTful API Design, Custom Auth Middleware, File Upload Handling
Styling:	Tailwind CSS, Responsive Web Design, CSS Flexbox, CSS Grid, Cross-Browser Compatibility
State Mgmt:	React Context API, useState, useEffect, useReducer
Performance:	Web Performance Optimization, Lazy Loading, Code Splitting
API Integration:	Clerk Authentication, Stripe Payments, Cloudinary
Practices:	Agile / Scrum, Version Control (Git), SEO Best Practices
Tools:	VS Code, npm, Vercel, Chrome DevTools

PROFESSIONAL EXPERIENCE

Frontend Developer Intern *Sep 2026 – Nov 2026*
Appverse Technologies | Lahore, Pakistan *Remote*

- Completed 12 assignments during a 6-week remote internship, delivering 6 frontend projects and 6 technical reports, including source code, documentation, and demo videos.
- Developed **ClearPay**, a responsive multi-page website using HTML5 and CSS, featuring a real-time pricing calculator, filterable features, animations, form validation, and persistent theme preferences. Achieved Lighthouse scores above 90.
- Built **Taskboard**, a framework-free JavaScript task manager with CRUD operations, drag-and-drop, URL-persisted filters, debounced search, Command Pattern-based undo/redo, and localStorage schema migrations. Wrote 26 unit tests and 60 automated browser tests.
- Created a responsive **Portfolio**, using CSS Grid, Flexbox, mobile-first breakpoints, and container queries, passing 64 automated browser checks. Developed reusable CSS components with design tokens, BEM naming, and light/dark themes.
- Implemented an ES6+ e-commerce data pipeline processing 50 simulated orders using filter(), map(), reduce(), and sort(). Completed 5 CSS layout challenges and documented frontend development concepts.

PROJECTS

Cross-Platform Full Stack E-Commerce Application (Final Year Project) *May 2026 – June 2026*

- Designed and developed a custom REST API using **Node.js, Express.js, TypeScript, and MongoDB (Mongoose)**, implementing data models for products, users, and orders.
- Implemented custom authentication middleware to protect backend routes and developed a file-upload pipeline for product images using **Cloudinary**.
- Built a cross-platform mobile frontend using **React Native and Expo**, integrating **Clerk Authentication** and **Stripe Payments** for login and checkout. Deployed the backend on **Vercel**.

Responsive ReactJS Web Applications *March 2024 – September 2025*

- Built fully responsive web interfaces, converting complex design prototypes into clean, optimized code.
- Utilized **Tailwind CSS** to ensure fast UI development and solid cross-device display compatibility.
- Managed state-handling logic and integrated external **REST APIs** for fluid data rendering on front-end components.

EDUCATION

University of Okara *November 2022 – June 2026*
BS in Software Engineering | Okara, Pakistan | CGPA: 3.15/4.0

CERTIFICATIONS

- React Hooks Crash Course (GreatStack) – hands-on mastery of functional React patterns
- Executive Diploma in Business Communication (uniathena) – stakeholder communication & technical writing
- Agile Scrum Master (Simplilearn) – cross-functional collaboration & inclusive practices
